

# RETROVIRUS CENTER SEMINAR & LAB MEETING

(Thursday 9:00-10:00 AM (Rm 322 Goss))

\* 02/14/08 David Derse NIH/NCI "Exploring the meaning of cell-to-cell transmission of retroviruses with HIV-1 and HTLV-1 vectors"

02/21/08 Niewiesk

02/28/08 Musier-Forsyth

03/06/08 Yoder

03/13/08 Kvaratskhelia

\* 03/20/08 Paul Spearman, Emory University  
"HIV assembly and vaccine development"

03/27/08 Burkhard

04/03/08 Boris-Lawrie

04/10/08 No Meeting "CVM Research Day"

04/17/08 Mathes

\* 04/24/08 Susan Ross, PhD Pennsylvania University  
CRR Distinguished Research Career Award (?3:30 pm?)  
"Co-evolution of a virus and its host: the mouse as a model for understanding host-virus interactions"

Fri \* 04/25/08 Susan Ross, 9:00 am Rm 322 Goss Lab  
"The role of innate immunity in mouse mammary tumor virus infection"

5/01/08 Green

05/08/08 Rosol

\* 05/15/08 Lawrence Kleiman, McGill University AIDS Center  
"HIV reverse transcriptase priming and virus assembly"

05/22/08 No Meeting "CSH Retrovirus Meeting"

05/29/08 Lairmore

06/05/08 Kwiek

06/12/08 Musier-Forsyth

06/19/08 Yoder

\* 06/26/08 Ned Landau, NY University School of Medicine  
"HIV infection and AIDS"

## SUMMER BREAK

09/04/08 Kvaratskhelia

09/11/08 Green

Fri \* 09/19/08 Peter Cherepanov, Imperial College of London

### CCC-VOP Seminar Series

Usually Last Monday of Month  
115 BRT or 518 James 11:45 am

1/28/08 Richard Vile  
Mayo Clinic  
Cell Based Delivery of Viral Vectors for  
Cancer Gene Therapy

2/11/08 Nancy Raab-Traub  
U North Carolina  
Epstein Barr Virus and Cancer: The Role  
of Latent Membrane Protein 1

3/31/08 Kathleen Boris-Lawrie  
Uncovering multifaceted regulation of  
complex eukaryotic mRNAs by  
comparative analysis of pathogenic  
retroviruses

4/28/08 David Curiel  
U Alabama-Birmingham  
Vector Systems for Targeted Gene  
Therapy

5/19/08 Erwin Van Meir  
Emory University  
Targeting hypoxic cancer using oncolytic  
viruses and small molecules
